

Independent Living with the

VELA Independence Chair

The VELA Independence Chair

VELA Independence Chairs offer independence at home and work in a user-friendly design. By sitting down in a VELA Independence Chair, you can perform your usual standing activities safely and comfortably without draining your energy. All because of a safe handbrake, easy-rolling wheels, and stable sitting comfort.

STABILITY AND MOBILITY

The brake ensures that you get stability for different activities. And the smooth-running wheels make you mobile, so you can easily move around at home while sitting down.

REACH NEW HEIGHTS

The electric lift lets you conserve energy when you reach for the cupboard or emptying the dishwasher. This feature can also be used as help to stand up from the chair.

OPTIMUM COMFORT AND ERGONOMICS

You can adjust the chair to get the best possible ergonomics and comfort to suit your exact needs – and the chair lasts for many years.

SAFETY EVERY DAY

You sit safely and securely – the brake ensures that. You also benefit from stable armrests and a good, supportive backrest. So you feel completely safe when you sit in our chair.

HELP TO STAND UP

The electric lift helps you stand up - with a touch of a button, the seat gently raises, and you can safely stand up with a minimum of effort. And the chair gives you the necessary support while regaining balance.

SAVE ENERGY

The electric lift ensures that you don't use unnecessary energy when putting plates in the dishwasher, reaching a sweater at the top of the wardrobe or brushing your teeth.

MAKE EVERY DAY EASIER

A VELA Independence Chair can make cooking, personal care, and other necessary daily activities more effortless and manageable. By doing more daily tasks by yourself, it is also possible to become less dependent on the help of others – and independence leads to a better quality of life.

Danish Quality

Enable Me™ has been selling VELA chairs in the U.S. since 2012, and became part of VELA in January 2023. VELA is a Danish family-owned company founded in 1935. All VELA chairs are designed, developed, upholstered, and manufactured in Denmark.

Our U.S. headquarters in Tampa provides customer service, logistics, and inventory, enabling delivery across the United States within five business days.

CHAIRS WITH CARE AND PRECISION

At VELA, quality, safety, and ergonomics are at the heart of every chair we make. Developed in collaboration with occupational therapists, our chairs are designed to provide lasting comfort and support throughout the day.

We use durable, high-quality materials to ensure long-term performance and appearance.
